SERVICE MENU

Pick what matters to you. We'll work out the right mix together, and you stay in control of your data.

PROTECT

Backup and sync setup
Automatic copies of your photos and documents, kept in more than one place.

Backup monitoring
I watch your backups and tell you if one stops working.

Secure data storage
Private, encrypted storage you control, with off-site copies.

MAINTAIN AND RECOVER

Remote system maintenance
Updates, health checks and fixes for your computers, done remotely.

Account recovery
Get back into locked, hacked or forgotten accounts, and close the ones you don't need.

CLEAN UP

Data broker takedowns
I request removal of your personal information from people-search sites.

Online footprint report
A clear report on what the internet shows about you, and what to do about it.

INVESTIGATE AND ENFORCE

OSINT investigations
Research using lawful, publicly available sources to verify, trace or document information.

DMCA filing assistance
Help getting your photos, writing and videos removed when someone posts them without permission.

Not sure what you need?
Let's talk and build a plan.
